EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 12-20.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 12-20 directed to Species B non-elected without traverse. Accordingly, claims 12-20 have been cancelled.

Allowable Subject Matter

Claims 1-11 are allowed.

Arguments and amendment presented on 2/28/07 are persuasive to overcome the prior art rejections. Specifically, arguments are persuasive in identifying that the prior art fails to disclose the limitation "wherein the cholesteric liquid crystal color filter layer has the same circular polarization direction as the first circular polarization direction" (Remarks Page 5).
